SIRAP
MORE THAN PACKAGING

COMPANY

Discover our world

Who we are

Sirap was founded in 1960 as “Società Italiana Ricerca Applicazioni Plastiche” – Italian Society of Research for Plastic Applications. Sirap Group is constantly evolving thanks to technical achievements and to the acquisition of other companies.
Over time, the Group gave life to innovations that are references in the food packaging world, as Activopack®, a self-absorbent XPS tray launched in 1993.

Sirap is leader in the French market since 2015, and it is strongly present in Europe also thanks to recent acquisitions in Hungary, Poland, Spain, France, Germany, UK and Italy, planned to strengthen its competitiveness in the field of rigid packaging.

OUR HISTORY

1960
Sirap is founded in Verolanuova

1990
Sirap becomes part of the Italmobiliare Group

1993
Launch of a new XPS self-absorbent tray “Activopack”

1994
Sirap enters the French market by acquiring a company that will then be “Sirap France”

1998
Launch of the barrier foam trays

2000
Start-up of a plant in Palermo to produce polystyrene foam trays

2003
Launch of the barrier absorbing tray BAT

2003
Acquisition of Petruzalek Group, a packaging trading company with headquarters in Austria

2005
Acquisition of the Hatvan plant in Hungary that produces Polystyrene trays

2006
Acquisition of Amprica and Inline Poland

2008
Building of the new Inline plant in Murowana Goslina

2011
Put in practice of the Environmental Policy for a responsible development

2015
Launch of the new rigid tray “Tamper Evident” with an innovative closing system

2015
Acquisition of the industrial activities of Vitembal Société Industrielle for the production of foam trays

2016
Acquisition of the Italian company Rosa Plast Due S.r.l.

2017
Doubling of the M.Goslina plant with a 10 million € investment

2018
Acquisition of Kama Europe Limited in the UK and of the Spanish Company Reynolds Food Packaging Spain

2018
Growth in the French and German market with the acquisition of the company Vitembal Tarascon and Vitembal GmbH

2018
Sirap officially enters the BIO packaging market

Sirap is one of the most qualified producers of packaging for fresh food in Europe. It is 100% controlled by Italmobiliare, an Italian holding quoted on the stock exchange of Milan.

The Group explores the world of packaging, offering a wide portfolio of standard or customised solutions.

OUR STRENGTHS

INNOVATION

A team of experts works every day to find new packaging solutions, customized according to the clients' needs. Many new ideas become prototypes in a short time.

PROFICIENCY

Sirap's sales network is made up of skilled technicians who bring together commercial capabilities and a deep knowledge of products and processes.

SUPPLY CHAIN

37 warehouses in 18 Countries assure fast and safe deliveries.

PASSION

Constant commitment to fulfil the ever-changing market needs, with high quality products and an excellent service. Working with passion to make a difference has always been Sirap's mission.

SIRAP 2017
THE FIGURES SPEAK

Proforma turnover: **290** million €

1.450 employees

13 production plants

22 companies in **18** countries

37 warehouses in **18** countries

THE NEW SIRAP POLICY

Development - Quality - Safety - Environment

1. ETHICS in the performance of all activities, in compliance with legal requirements, conformity obligations and the internal health and safety, quality and environmental management rules, and promoting mutual respect and care among colleagues, respecting diversities and assuring everyone a positive, safe working environment, for a sustainable growth.

2. CUSTOMER FOCUS, by supplying services, products and packaging solutions through pre and after sales services that respond quickly to every need, with high-performing products that comply with food safety standards and feature consumer safeguard technologies.

3. INNOVATION by investing in research and development, to anticipate and support the market needs; by developing innovative solutions and products that guarantee product and service reliability while protecting the health and safety of people, the environment and the surrounding communities.

4. CONTINUOUS IMPROVEMENT to maintain the company's competitive edge, to optimize all company processes and to improve the efficiency of systems for managing health, safety, quality and environment.

5. ENVIRONMENTAL PROTECTION through optimisation of processes to reduce waste and environmental impacts in all phases of the product's life cycle; reducing consumption and encouraging sustainable use of resources.

6. RELIABILITY AND TRANSPARENCY: our action, whether internal or directed to suppliers, customers, external authorities and local communities, will be based on maximum transparency criteria, reliability and integrity.

7. EDUCATION, INFORMATION AND TRAINING to promote good practices at all levels, to prevent health and safety hazards for people, environment and to guarantee product and service quality to all customers.

8. INVOLVEMENT of all organisation levels and external personnel in safeguarding the environment and in identifying potential hazards to employees to prevent accidents, injuries and occupational diseases. Everybody is committed to the achievement of the expected results with competence and dedication, creating a favourable environment condition to individual development towards mutual advantage.

For Sirap, corporate culture starts from the values expressed in the eight points of the Development Policy.

Over the years we have implemented a path aimed at cultural change on health, safety and environmental protection, considering people at the center of our activities.

RESULTS

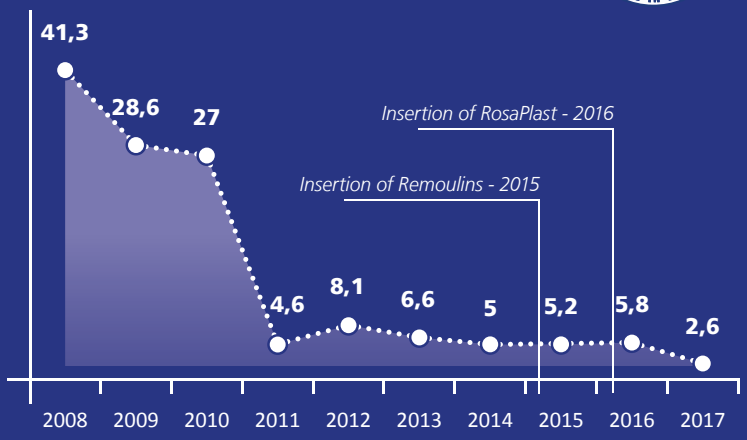
Reduction of the number of injuries within the group companies.

- 90%

Injury Frequency Index

= n° of injuries per 1 million working hours

As part of our activities, we have reduced the Injury Frequency Index by over 90%.
This value takes into account the acquisitions over the years and the extension of **Sirap best practices**.



NEXT TARGET

0 Zero Injuries

FULL CERTIFICATE PROJECT

With the aim of pursuing excellence in the management of our processes, we launched the “Full Certificate Project” with the aim of bringing all the production sites to a “certified system”.

The project, launched in 2016, envisages a process of preparation and implementation of an Integrated Health, Safety and Environment Management System, which has obtained certification according to the best internationally recognized standards.

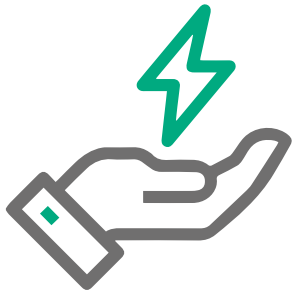
SUSTAINABILITY: SIRAP´S STRATEGIC PILLAR

Sirap is constantly engaged in Research and Development and training to improve production processes and products in order to minimize their environmental impact. Important investments are made every year with the aim of optimizing energy consumption and, consequently, reducing CO_2 emissions.

Sirap is sensitive to the theme of sustainability, in all its aspects. Concrete examples are the careful and conscious use of materials (virgin, recycled and BIO), corporate training on the subject (carried out at all levels), and the involvement of experienced partners for the development of new "green" solutions.

ENERGY SAVING POLICY

Active since 2011, the energy saving policy has brought considerable results throughout the Group.



ACTIONS

PROCESS OPTIMIZATION

PLANTS MAINTAINANCE

STAFF TRAINING

EFFICIENT LIGHTNING MANAGEMENT

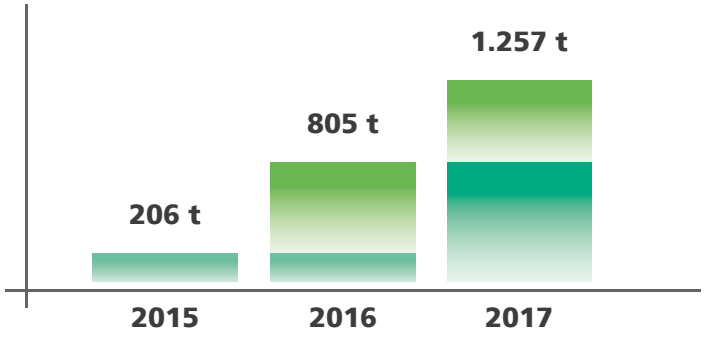
EFFICIENT AIR CONDITIONING SYSTEMS

EFFICIENT AIR PRESSURING SYSTEM

RESULTS

AVERAGE ANNUAL REDUCTION IN CONSUMPTION

PROGRESSIVE REDUCTION OF CO2 EMISSIONS (tons)



RECYCLABILITY: R-PET

Recyclability is a central subject of Sirap activities. Particularly, the production of PET foil consists of a multilayer sheet containing Recycled PET from post consumption.

The layers in direct contact with food are composed of Virgin PET, a “functional barrier“ which complies with the requirements of article13, “materials and multilayer plastic objects” in paragraphs 2, 3, 4.5 of Reg. 10/2011.

R-PET

PET FILM

FOAM: EFFICIENT USAGE OF THE MATERIAL

Our foam trays are designed to guarantee the highest mechanical, thermal and absorbing performances by using the minimum amount of material in a very efficient way.

- **LESS MATERIAL USAGE**
- **BETTER MECHANICAL PERFORMANCES**
- **BETTER PRODUCT PERFORMANCE**
- **THE MATERIAL CAN ALSO BE SELF-ABSORBENT**

BIO MATERIALS

Since June 2018, Sirap will introduce two low environmental impact materials, produced from renewable sources and compostable: PLA (polylactic acid) and Mater-Bi®.

PETRUZALEK GROUP

Petruzalek is a business organization dealing with packaging technologies. We offer a wide range of packaging machines and packaging materials, a regular service and maintenance in all countries. A group priority is the satisfied customer and therefore we provide a complex solution in the area of a packaging, a distribution and a continuous service. Our line of products includes automatic and hand packaging machines and a wide choice of packaging materials, from films, trays, rigid materials through bags and cups to hygienic aids. Company tradition began in 1961 when Petruzalek was founded. Years later the Teich firm, which is a part of the greatest Austrian private firm, Constantia concern, entered the company with its capital. In 2003 the Italian production company Sirap-Gema purchased all interests and became a new owner.

OUR HISTORY

1961
The V. Petruzalek GmbH is founded in Vienna.

PETRUZALEK
Verpacken mit System

1979
The firm Teich AG enters the firm as a limited partner with a deposit of 3.6 million ATS.

1985
Change of the name to "Petruzalek Ges.m.b.H.„

1992
Beginning of a company expansion and the origin of the first 100% subsidiary company in Czechoslovakia of that time (Bratislava).

1993
After dividing of Czechoslovakia a distribution stock for Czech republic in Breclav arises.

1994
Opening of a branch office in Slovenia (Maribor).

1995
Since 1st January 1995 the firm Petruzalek has gained 60% of the ownership portion in the firm Hungaropack in Budapest.

1996
Opening of branch offices in Romania (Bucuresti) and Croatia (Zahreb).

1999
Opening of a branch office in the Ukraine (Odesa).

2000
On-line connection of branches in CR and Hungary and a parent firm in Austria and conversion to a common invoice program. Establishment of a new branch office in Bulgaria with the name Bulgariapack.

2001
Establishment of a new branch office in Bosnia-Herzegovina (Sarajevo)

2002
Unification of Group logo.

PETRUZALEK
Verpacken mit System

2003
Sirap-Gema group purchases Petruzalek concern with all Europe branches. Establishment of branch office in Serbia (Belgrade).

SIRAP-GEMA GRUPPO

2006
Sirap Gema buys Amprica and Inline Poland - significant producers of rigid transparent packages.

2007
Establishment of new branch offices in Turkey (Istanbul) and Moldavia – region Black See.
1.7. 2007 merger of companies Hungaropack and production plant Petruzalek Kft.

2009
New Group logo with Sirap inside.

Sirap Group
Petruzalek
Verpacken mit System

2013
Petruzalek Group structure reorganization.

2016
New united group logo for all the Group.

SAFE-T-FRESH®

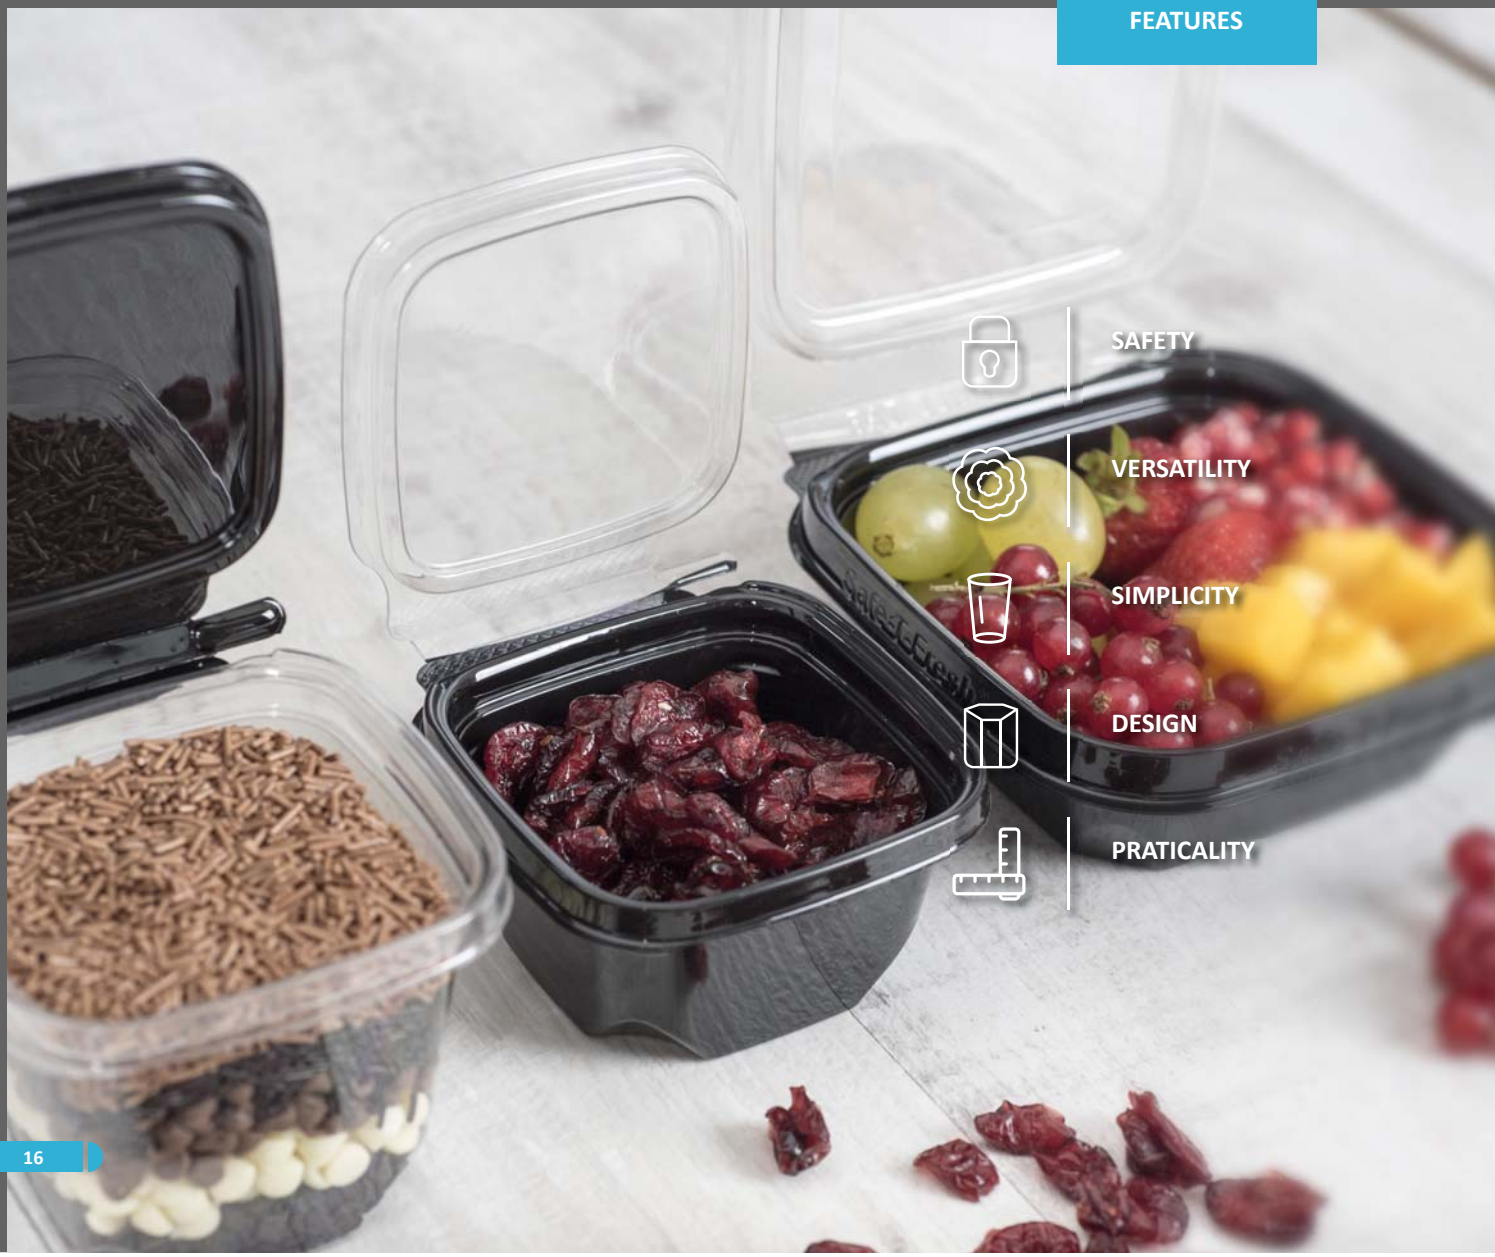
Discover the power of innovation

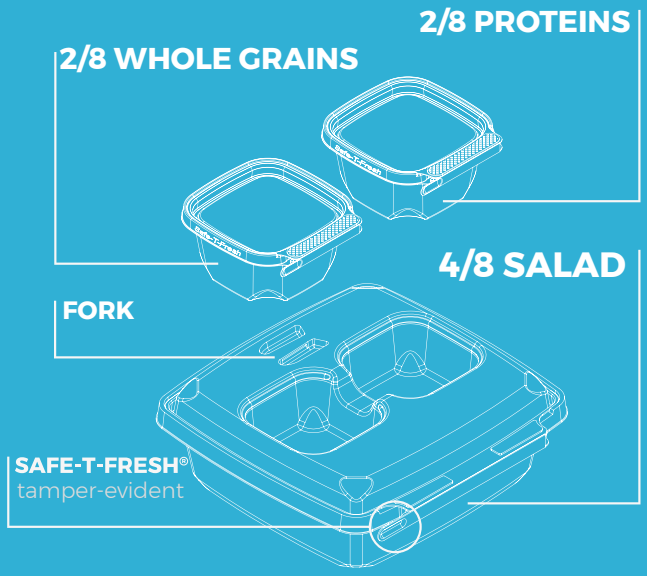
Safe-T-Fresh® guarantees safety, efficiency and versatility.

Thanks to the many available shapes and sizes, it is suitable for a big variety of products, both dry (nuts) and fresh (fruit salads and yogurts). Even without having strips or labels, the innovative closing system is 100% safe as it is Tamper Evident.

Safe-T-Fresh® is a high-tech solution with low costs of packaging that enhances the quality and the appeal of food. From this year, for the most exclusive formats, the Bicolor version is available!

FEATURES





MEAL8®

MEAL8® is the new modular packaging by Sirap. Thanks to its modular design, it allows the end user to freely choose their own meal, complete with fork, balanced and safe thanks to the Safe-T-Fresh® system. Combined with the new TS3004, MEAL8 allows you to keep the ingredients separate, ensuring a more efficient management of expiry dates and reducing waste.

MEAT & FISH

Discover the value of quality

Premium foods deserve a proper presentation. That is why Petruzalek has a portfolio of solutions that are designed in detail.

The offering is characterized by functionality and versatility, with attention to aesthetics and design, especially for niche products.

Petruzalek proposes innovative answers to all needs: polystyrene trays and possibility of MAP or Skin packaging, PVC and PE stretch wrap film for ultra-fresh food. We complete offer with Top sealing films for MAP and SKIN, with absorbent pads, vacuum bags and paper sheets.

Other dimensions possible, individual print on request.

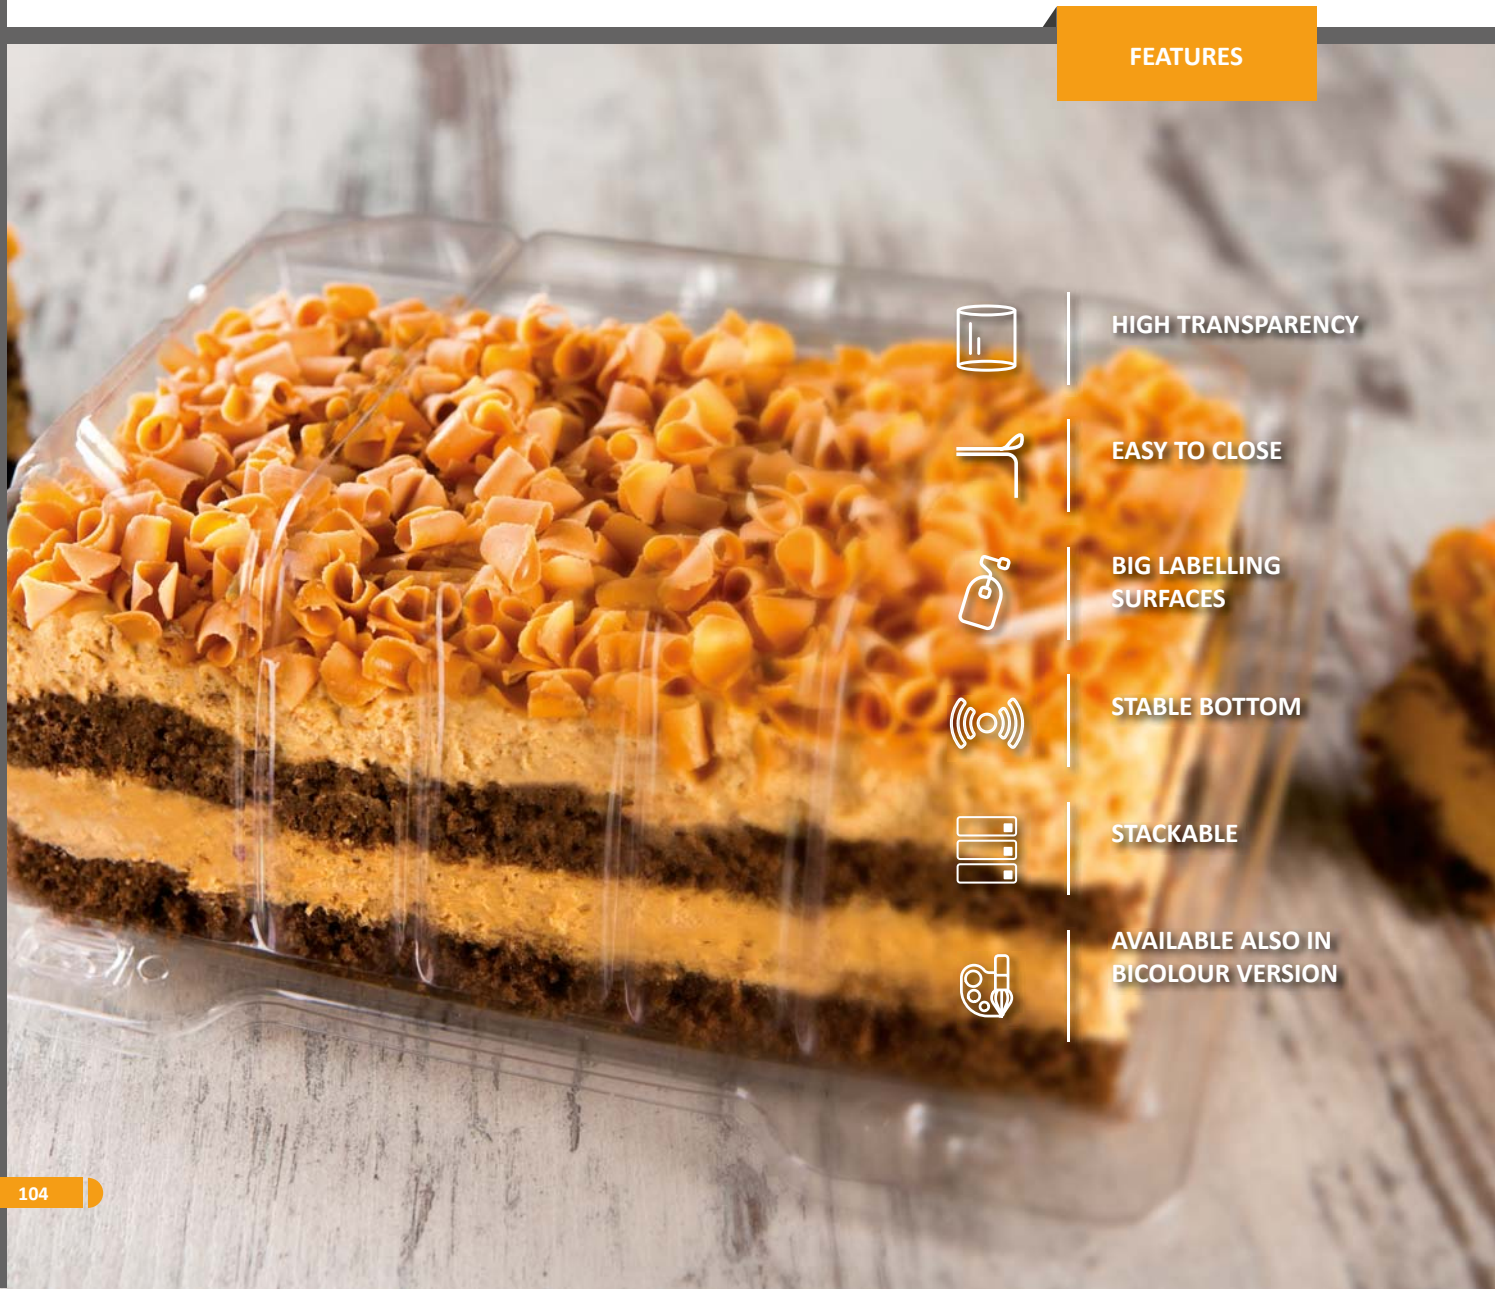
BAKERY

Discover the true sweetness

The right packaging could make sweets and bakery products even more appealing.

Petruzalek offers practical, efficient and effective solutions in many shapes and sizes, all characterized by beautiful transparent lines.

Our offer also covers XPS trays, PP and PE films, HDPE and paper bags, paper boxes as well as clips and bands closing systems.



FEATURES

- HIGH TRANSPARENCY
- EASY TO CLOSE
- BIG LABELLING SURFACES
- STABLE BOTTOM
- STACKABLE
- AVAILABLE ALSO IN BICOLOUR VERSION

Rectangular

Hinged lid containers

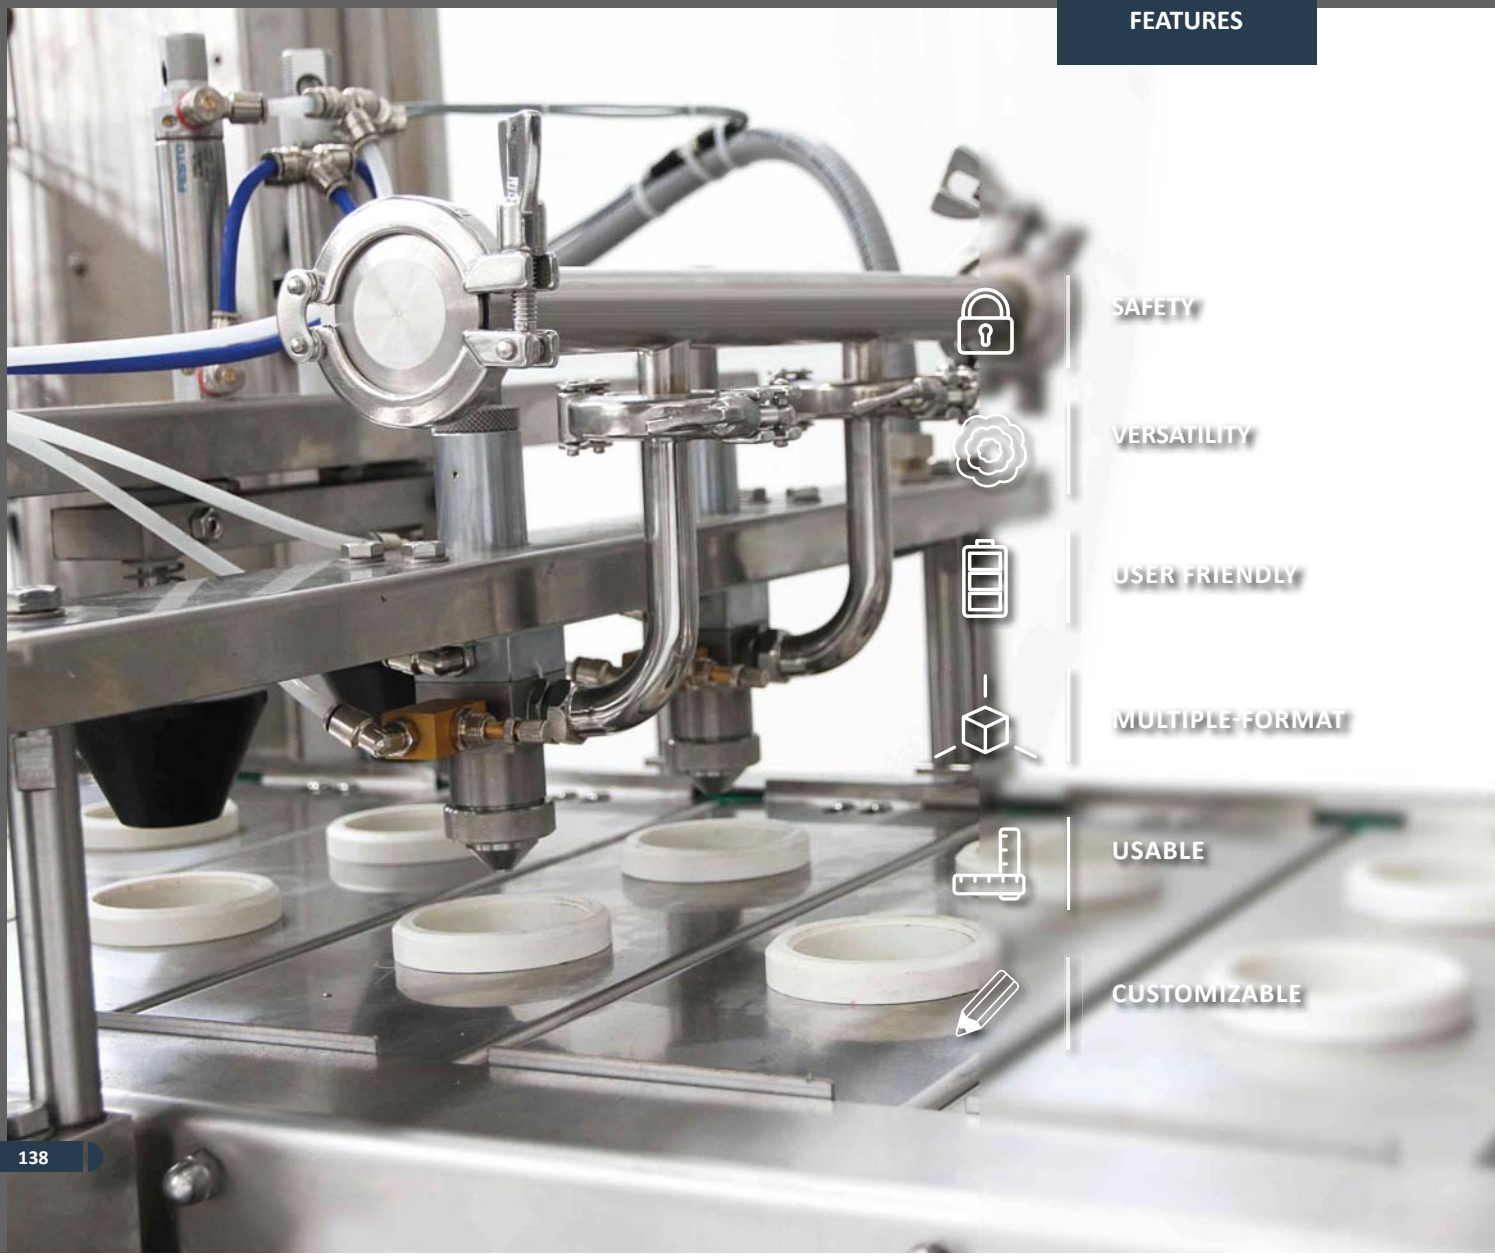
MACHINES

Turnkey solutions for packaging

Petruzalek cooperates with a wide portfolio of partners for machines manufacturing, being able to provide a wide range of applications and solutions for packaging. We can propose systems for stretch film packaging, horizontal flow packaging, vertical form, fill and seal, horizontal form, fill and seal, tray sealing, vacuum packaging, shrink film packaging, net packaging, twist and clip packaging. We can provide turnkey solutions, including equipment for bread or meat slicing, fruit and vegetables processing and much more.
We built our know-how in different segments and applications, from food to non-food industries, handling complex lines and plug & play machines, from the sale to the after sale. We have a consistent network of sales managers and service engineers, we have warehouses where we keep the critical spare parts and our reaction is always prompt, both for sales meetings and for service interventions.
In Petruzalek, we share experiences and we build singergies to enhance our expertise about machinery and applications, and we strive to be a reliable and consistent partner for your packaging projects!

FEATURES



Packaging machines

Stretch film packaging machines

Fully automatic packaging machines for the easiest and cheapest packaging of fresh food.

Horizontal flow pack machines

Horizontal machines create a tailor-made package around the product and sealed from three sides.

Vertical form, fill and seal

The vertical form, fill and seal machines are suitable for packaging a wide range of products, from powders and granulates to liquids.

Tray sealing machines

This range of machines includes manual tray sealing machines and high speed tray sealers able to pack even in MAP (Modified Atmosphere Packaging) or SKIN pack.

Fill seal packaging machines

Fill and seal packaging machines, horizontal or rotary, suitable for a wide range of products.

Thermoforming packaging machines

These machines realize the whole packaging starting from a reel of flexible or rigid film which is thermoformed with infinite possibilities of shape and size.

Vacuum machines

Extremely reliable machines; they satisfy the needs both of small users and of those operating on a large scale.

Machines for nets packaging

These machines are designed especially for fruit and vegetable processors and for frozen semi-finished products producers.

Twist and clip machines

Machines for bags closing with plastic clips or plastic coated metal wire, they could embed a coding unit.

Sealers

L-sealers or continuous side sealers, even suitable for heat shrinking applications.

Heat Shrink packaging machine

Series of hot air ovens designed to shrink sealed products.

Banding machines

Banding machines, from tabletop models to custom-made banding solutions.

Check weighers

Very sensitive and compact high-speed machines, suitable for weighing of wide range of products. The accuracy of checkweighers minimises overfill waste and, therefore, increases productivity.

Pallet stretch wrapper

Machines for stretch pallet packaging with a rotating table, to stabilise palletised loads.

Metal detectors

Metal detectors inspect the product, checking for ferrous and non-ferrous metal contaminants with BRC standard-compliant accuracy, rejecting defective parts from the production line.

X-Ray inspection

X-ray inspection systems base their operation on differences in density and, therefore, on the different ray absorption levels of objects unrelated to the product.

Processing machines

Mincers

Wide range of accurate, sturdy and reliable machines, suitable for butchers and delicatessen shops, supermarkets, kitchens, food industry.

Bone saws

Band saws are ideal for cutting fresh or frozen meat with or without bones; suitable for butcheries, catering, restaurants and supermarkets.

Meat mixers

They quickly mix meat, spices and other ingredients to produce an evenly blended mixture for sausages, hamburgers, meat loaf.

Bowl cutters

Bowl cutters are cutting machines for meat products, they are often used in the production of fine sausage mixture.

Slicers and dicers

Multipurpose slicers and dicers are designed for cutting meat or vegetables in slices, stripes, dices, cubes.

Skinners and derinders

These machines are used to remove rind and fat from raw meat products.

Bread slicing/packaging machines

Fully automatic slicers and baggers for bread.

Peelers and cleaners for vegetables

Machine is easy to use and clean, efficient and robust, has fast processing cycle and minimum waste.
Peelers and cleaners mean savings in labor with excellent results.

Graters

All graters are powerful, compact, reliable, easy to clean and user friendly. Models are entirely manufactured in stainless steel, ideal for grating parmesan, hard cheeses, bread, almonds, chocolate.

Vegetable cutters

Multi-purpose vegetable cutters can slice, dice and prepare a “julienne” cut from fruit and vegetables.

Turnkey systems

We can provide turnkey solutions, including equipment for bread or meat slicing, fruit and vegetables processing and much more. We built our know-how in different segments and applications, from food to non-food industries, handling complex lines, from the sale to the after sale.
We have a consistent network of sales managers and service engineers, we have warehouses where we keep the critical spare parts- In Petruzalek, we share experiences and we build singergies to enhance our expertise about machinery and applications, and we strive to be a reliable and consistent partner for your packaging projects!
