Sustainability

All members of the Zeus team recognise the importance of environmental protection. Therefore, we make every effort to minimise the impact of its operations on the environment and carefully consider the materials we use to produce packaging.

Environmental Thinking

Food packaging plays an important role in today's society. At Zeus, we strive to ensure that each piece of packaging protects and promotes your food while also delivering on your environmental goals. To that end, we aim to supply you with a wide range of environmentally-conscious materials that can help mitigate our collective impact on the planet. Furthermore, we are committed to continually monitoring our activities and improving our environmental performance.

As we look ahead, we endeavour to continue to expand our offering of sustainable packaging solutions.

Introducing Gaia

A new, eco-friendly paper product range to suit all needs.

Our Gaia product range is manufactured exclusively with biodegradable cardboard, and is made from 100% paper with a high degree of protection against water and oil. The products of this range are available in different sizes and can accommodate a wide variety of food types such as crepes, sandwiches, fries, burgers, and appetizers.

Bio Boxes

Our Bio Boxes range offers a comprehensive product list for the delivery of cooked meals, and includes a wide variety of 100% leak proof packaging solutions that fully cover your restaurant's needs.

Leak proof

Stackability

This range offers a comprehensive product list for the delivery of cooked meals, and includes a wide variety of leak proof packaging solutions that cover most restaurant's needs.

The boxes are made of polyethylene-coated paperboard, appropriate for direct food contact. A variety of sizes is available to be printed with your customer's artwork at a minimum order quantity of 5,000 pieces in two different qualities of paper.

Two different types of closing systems are available to choose from:

Hook Lock: Closes with a quick, single movement. Easy to use.

Slot Lock: Offers a more secure closing system. Ideal for both takeaway and delivery.

Fruit & Vegetable Boxes

This range is the ideal paper packaging solution for supermarkets, organic fruit and vegetable stores and more. It is easily customisable and offers flexibility when designing your own dye cuts. Furthermore, it promotes sales in smaller, higher-quality packs. As a result, it increases brand awareness and profit margins.

Recyclability

Stackability

Adaptable Design

Eco-friendly

The use of paper is not only an environmentally-friendly option, but also a better one thanks to its biodegradable properties, which are not affected by the use of coated materials.

Personalised Printing

This range is easily customisable and is offered in high-quality print. Your artwork, logo or product photos can be printed directly on your packaging. At the same time, the ban of labels creates savings in material, equipment and labor costs.

** This range is available upon request. A variety of sizes is available to be printed with your customer's artwork at a minimum order quantity of 50,000 pieces in different qualities of paper.*
